Република Србија

KLINIČKI CENTAR SRBIJE

Invitation

Dear,

We are delighted to inform you that the Association for the Prevention of Metabolic Disorders, along with the Clinic for Endocrinology of the University Clinical Center of Serbia, will have the honor of hosting 2025 4th World Congress "Controversies in Obesity and Diabetes - CODi", with the theme "From Controversy to Consensus in Diabetes, Obesity, and Hypertension." The congress will be held from March 7th to 8th, 2025, in the beautiful setting of the Crowne Plaza Hotel in Belgrade.

We are extremely honored and pleased to invite you to become a sponsor of the CODi international conference, which has been running for almost 20 years. The CODi conference, initiated by the National Council for Diabetes, a part of the Ministry of Health of the State of Israel, has gathered participants from around the world and has been held in many European countries, including Spain, Germany, Czech Republic, France, Turkey, China, and many others. Each conference gathers thousands of participants, and every few years, a supplement is published containing dozens of articles and hundreds of pages with conference findings, of which four supplements have been published so far.

The CODi conference gathers the most eminent experts in the field of medicine, including numerous Nobel laureates from the United States, Europe, and Israel. The goal of this year's gathering, which will be held in Serbia, is to disseminate the latest information and knowledge in the fields of obesity, diabetes, and hypertension, with a special focus on the residents of Europe, especially those from Eastern and Central European countries.

This time, in March 2025, the University of Belgrade, Faculty of Medicine, Clinical Center of Serbia, and the Clinic for Endocrinology, Diabetes, and Metabolic Diseases, one of the largest endocrinology institutions in Europe, have the honor of hosting this prestigious event. We expect the attendance of the most eminent lecturers from around the world, as well as an audience eager for the latest knowledge and solutions for a better quality of life.

We believe that your participation in the CODi conference will be an excellent opportunity to showcase your innovations and solutions in the field of healthcare, as well as to establish new business and professional connections worldwide.

If you are interested in sponsorship or would like more information about the CODi conference, please contact us by responding to this email.

We look forward to your response and hope for a successful collaboration.

Sincerely,

Prof. Dr. Itamar Raz

Medical Director at the Diabetes Medical Center in Tel Aviv and the head of the Israeli council of Diabetes

Hadassah Hebrew University Hospital, Jerusalem-Israel

Prof. Dr. Svetlana Vujović
